

## 550 Gallon Bin

### Model Specification

- Model 550 (Portable)
- Rectangular Tank With Flat Bottom
- Capacity: 550 Gallons - 5040 Pounds
- Top Fill: 20" Manhole and 2" Threaded Coupling
- Weights:
  - Tare- 1020 Pounds
  - Gross - 6060 Pounds

### Greatly Reduced Material Handling Costs:

The costs of multiple drum handling and storage, ranging from \$10.00 - \$25.00 per drum, are eliminated. Bulk storage also eliminates costly drum cleaning operations.

### Eliminate Wastes

Bulk tanks eliminate 5 - 10% per drum loss of grease or oil. The units also eliminate the contamination caused by transferring pumps from one drum to another.

### Improved Operating Efficiency and Flexibility:

Bulk storage tanks use a minimum of plant floor space and afford maximum portability for convenience in use. Fill and header lines can be kept as short as possible to ensure efficient flow resulting in better house keeping and plant safety. Greater reservoir capacity also reduces downtime.
